jaunums - mūsu sortimenta papildinājums

** - ierobežotā daudzumā, bet > 10 gab.

*** - pieejams vasaras otrajā pusē

i - importēts no Polijas

agru skaits ierobežotā daudzumā (mazāk par 10 gab)

KS - kailsakņu stāds, sakņu kamols ietīts džūtā

(+) bambuss - stādam piestiprināts atbalsts

S.A. - stumbra apkārtmērs 1 m augstumā cm.

Pa - potējuma augstums nokarenām formām vai potēta koka augstums cm.

Pa-s potēts uz sakņu kakla, augstums cm.

C 1 - 1 litra konteiners

C 2 - 2 litru konteiners

...

C 20 - 20 litru konteiners

150+... lielāks par 150 cm

25.00+... lielāks par 25.00 Ls

Norādīto stādu sortiments un cenas var būt mainīgas!

Cenas uzrādītas **mazumtirdzniecībai**. **Vairumpircējiem darbojas atlaīžu formula - no 20%.**
